CUTTING WOOD OF NAMED VARIETIES

Whips: Average length 16 inches, 10¢ each. Each whip makes about four cuttings.

SPECIAL \$5.00 Home Garden Assortment

A selection of 12 bearing size plants, named varieties (our selection) which should produce berries over a period of 8 weeks. With this order we include six, 12 to 20 inch seedling blueberry plants free.

NOTICE TO CUSTOMERS

Prices on our blueberry plants are no higher this year, however, owing to the high cost of labor and packing we are unable to continue paying shipping charges. An extra charge of 2¢ per plant on 3 yr. size, 1¢ on 2 yr. size and $\frac{1}{2}$ ¢ on 1 yr. size should accompany order.

(Washington customers please add 3% sales tax to your order.)

(EXTRA PLANTS GIVEN FREE WITH EVERY ORDER OF \$2.00 OR MORE)

(PROMISING NEW VARIETIES)

PEMBERTON--(Coville Hybrid of Rubel parentage)
Vigorous and productive bush, berries larger than Rubel, and of better flavor. Ripens late in season.

ATLANTIC---(Coville Hybrid of Jersey parentage)
Bush is strong grower and produces large clusters of good flavored berries. Ripens in midseason.

N-1410-----(Eberhardt Hybrid of Rubel parentage)
Bush tall more vigorous than Rubel, berries larger and of good flavor. This variety promises to be one of the best keeping and shipping berries grown today. (See color plate on folder for this variety.)

2 yr. plants \$1.50 each

WEYMOUTH---(Coville Hybrid of Cabot parentage.)
This variety produces large crops of very early berries of good flavor and large size.

DIXIE----- (Coville Hybrid of Stanley parentage.)
Bush very vigorous bears large clusters of berries, individual berries often reach an inch in diameter and are of good flavor.

D-4----- (Eberhardt Hybrid of pioneer parentage.)
Bush reaches a height of 7 feet, is very vigorous and has a large leaf surface, capable of nourishing a heavy crop. Berries up to one inch in diameter, of delicious flavor, clusters are short and full and ripen evenly. The bush is stocky and erect and easily pruned. D-4 was chosen as the best plant from over 20,000 Hybrid seedlings. Ripens early midseason.

2 yr. plants \$2.00 each

Only a limited number of the above described varieties are available this season.

For home garden planting, space plants at least 3-5 feet, and plant same as you would rose bushes or other shrubery.
